

The background is a gradient of blue and purple, filled with various celestial and decorative elements. There are several stars of different sizes and colors (white, yellow, green, blue). A prominent white shooting star or comet streaks across the upper right. A large, multi-layered white star is on the left. In the bottom right, there's a large, semi-transparent purple shape with colorful circles inside. The overall effect is bright and festive.

The background is a gradient of blue and purple, filled with various decorative elements. There are several stars of different sizes and colors (white, light blue, green, and purple). Some stars are solid, while others are outlines. There are also glowing white lines that curve across the frame, and a collection of small, colorful circles in shades of orange, white, purple, and green. The overall effect is bright and celebratory.
